

## **Important - Advice on Safe Use of Your Medicines**

### **Ensure you always:**

- Take or use your medication in accordance with the printed instructions on the label, or manufacturers recommended doses.
- Read the label and the enclosed patient information leaflet carefully.
- Return any unused medication to your local pharmacy for destruction or contact us to arrange return
- Keep all medicines out of sight and reach of children.

### **You must never:**

- Share prescribed medicines with others.
- Transfer medicine from one container to another

**Important: These medications have been prescribed/ recommended for use by you only- do not share them with anyone else**

Additional advice: Do not crush tablets before taking – check with pharmacist first. Tell your pharmacist if you have difficulty opening or using your medicines

If you need any further advice about taking your medication or its effects then please contact one of our pharmacists on 0207 867 3932.
